1. **Read the passage given below and answer the question complete the sentences that follow : (1 X 8 = 8)**

People the all over the world wash their hands with water. Using soap adds to the time spent in washing, breaks down the grease and dirt that carry most germs by facilitating the rubbing and friction that dislodge them and leaves hand smelling pleasant. Good hand washing techniques include washing your hands with soap and water or using an alcohol based sanitizer. It has been reported that washing with soap is one of the most effective ways to prevent diarrhoeal diseases. It is also the cheapest way. In addition hand washing with soap can limit the transmission of respiratory disease, a killer of children under five. More hand washing with soap would make a significant contribution to meeting the millennium development goal of reducing death among children under the age of five by two thirds by 2015.

Hand washing with soap is among the most effective and inexpensive ways to prevent diarrhoeal diseases and pneumonia, which together are responsible for the majority of child deaths. Every year, more than 3.5 million children do not live to celebrate their fifth birthday because of diarrhoea and pneumonia. Yet, despite its lifesaving potential about hand washing with soap is seldom practiced and is not always easy to promote. On the other hand, lack of education about hand washing with soap not only increases the risk of diseases among children/people but also increases the number of deaths which is occurring because of less knowledge about hand washing.

A cute respiratory infections like pneumonia are the leading causes of child death.

Evidence suggests that better hygiene practices like washing hands with soap after defecation and after eating could cut the infection by about 25 percent. It seems pretty simple a step to make such a big change in the lives of the people. The best time to get accustomed to this habit is during childhood.

1. It happens to us all, however hard we may try to delay the process. We grow old. Cosmetic surgery may remove wrinkles, skin which has suggested may be tightened by means of a facelift and a hair dresser may dye grey hair a more youthful colour, but we cannot remain young forever. Advances in medicine have made it possible for more people to stay alive longer.
2. Age beings intelligence, experience, wisdom and beauty. So why are we so scared of it? The trouble is that many of us find it impossible to relate to these worrying facts, unable to face the reality that everyday we inch ever closer to our own dotage. Our older generations experienced the majority of the most tumultuous century in human history and yet at best we infantilise , at worst outright ignore them.
3. However, what is important is the quality of life. Some people are lucky to be taken care of at home whereas others may have to move to residential homes. The worst pat of ageing that often the mind becomes less alert. As people grow older they experience short-term memory. Later, some may suffer from dementia, often in the form of Alzheimer's disease.
4. By no means are all people in this category. Many senior citizens are in the possession of all their faculties and see retirement as a time of freedom. Not only that if they have a generous retirement pension, they are likely to be quite well-off with money to be spent on a holiday and other luxuries. Because of this, both businesses and

government have a new respect and government have a new respect for what is known as grey power. By no means, however, does everyone treat the elderly with great respect.

5. There are some cultures which are noted for the great respect with which they treat old people, but many people regard the old as having a very low status in society and treat them accordingly.
